
TO WHOM IT MAY CONCERN

Mr. TRAN QUI THAN has been personally known to me for nearly two years and I have formed a very favourable opinion of this young man. He has a pleasant personality, is very hard-working, and is trustworthy.

Mr. Tran Qui Than came to the London School of Economics as a General Full Course Student from the University College of Exeter, where he graduated with a B.Sc.(Econ.) degree. With us he pursued specialist studies in Money and Banking and on the basis of his year's work (which was examined unofficially) I would say that he achieved a standard equivalent to a good Pass in the group of subjects which we offer in this specialism, viz.:

- English
- Monetary and Banking History
- Monetary Theory
- Comparative Banking Institutions
- International Monetary Economics

He was a regular member of our teaching seminars, in which he took an active part from time to time in reading papers or opening discussions.

J.S.G. WILSON
Reader in Economics, with special reference to Money and Banking.
TO WHOM IT MAY CONCERN

The undersigned wishes to commend to your kind attention any application that you might receive from Mr. TRAN QUI THAN, a citizen of Vietnam and student of this Institute during the academic year 1954/55.

Mr. THAN has, in particular, attended my seminar on International Economics and has distinguished himself as one of my best and most diligent students. Having come to this Institute from the London School of Economics with a very good background and with high commendations from his professors, Mr. THAN has endeared himself to my colleagues and myself by his intelligence, his assiduity and his extremely favourable "personal equation". We should have liked to see him back with us this year, but he has informed us of his intention to return to his country. My best wishes, and those of my colleagues, will go with him in the conviction that he will be a very useful citizen of his country whether he goes into Government work or into private business.

Signed:

Michael A. Heilperin
Professor of International Economic Relations

and

Economic Correspondent for Western Europe of FORTUNE Magazine, New York

Formerly

Economic Adviser of the USA Council of the International Chamber of Commerce

New York
