Dear General Collins:

Your very generous letter of March 11 expressing appreciation for the services rendered by Dr. Fishel is very much appreciated.

It is a matter of considerable regret to us that there has been so much delay on the part of the government in preparing the contract covering the program for certain services in Viet Nam. I want you to know that Michigan State College is anxious to get this work under way and to do whatever we can to be helpful.

I hope you will always feel free to write me frankly about anything that we can do to make the program more effective or keep it moving in the right direction.

With kind personal regards.

Sincerely,

President

General J. Lawton Collins
Special Representative
of the United States in Viet Nam
American Embassy
Saigon, Viet Nam
