Dear Mr Hannah:

I am well started on my way home & am very happy about it.

My two weeks stay in Saigon was just about long enough and apparently had the necessary effect on our police group.

According to all reports the police advisors are doing a fine job & enjoy the confidence of everyone from Pres. Diem down. I was very pleased with the reports received & the general attitude of our group.

While in Manila I had  
a long visit with our friend  
Gov. Hidrosollo. You should  
be alerted to the fact that he  
is strongly suggesting that you  
consider becoming ambassador  
to the Philippines & is vocal about it.

Everyone in Saigon is  
anxiously awaiting your  
arrival there. They feel that  
a visit from the President of  
MSU is very important.

Barrows is anxious to have  
Philip May visit Saigon & help  
him resolve a question regarding  
the interpretation of our contract.  
I was quite impressed with  
Barrows. At his suggestion I  
stopped in Greece to inquire about  
a police project being proposed for  
the Greek police. My visit here & else-  
where in the near & far east convinces  
me that we can not look to these  
police operations for any assistance.  
See you soon - Ant.
