Dr. John Hannah  
President, Michigan State University  
East Lansing, Michigan

Dear Dr. Hannah:

The Sunday New York Times (April 17, 1966) reported that Michigan State University had operated in concert with the C.I.A. during the period 1959 through 1962. As a graduate of this institution I deplore this "intellectual prostitution" and will herewith do my best to conceal my association with M.S.U. .

Please remove my name from the M.S.U. alumni mailing list immediately.

Regretfully yours,

Dear Doctor Lacognata:

This is to inform you that your request to have your name removed from the Michigan State University alumni mailing list is being transmitted to the Alumni Office.

On the off chance that you are interested in the facts, I am sending this copy of a statement I made at a press conference on April 22 regarding the Michigan State University project in South Vietnam.

Sincerely,

President
