OFFICE OF THE DEAN OF INTERNATIONAL PROGRAMS

April 25, 1966

Dr. John A. Hannah, President
Michigan State University

Dear President Hannah:

I am sending copies of your statement, and in some cases copies of my own report to the Academic Council to many of the international programs people around the country with whom we work. We are also airmailing such statements to our people overseas.

I would recommend that your statement be sent with a personal letter to a number of Senators and Congressmen from Michigan in view of the comments that may be made on our program in the Senate and Congress. It might also be well to send such a document or documents to Senator Fulbright, Governor Romney, and others who should have our side of the story.

Sincerely yours,

Ralph H. Smuckler
Acting Dean
