Dr. John A. Hannah
President
Michigan State University
East Lansing, Michigan

Dear President Hannah:

Your splendid defense of Michigan State University's work in Vietnam deserves a major vote of appreciation from many people. I would like to add my words of gratitude to you for a forthright and convincing statement. All of us who are involved with the role of American universities in developing countries were outraged at the vicious attack to which MSU has been subject.

It is difficult enough to create an effective international program without being subject to such well-publicized abuse at home. It is hard to calculate the amount of damage done by such deliberate slander but you have done everything possible to set the record straight. Thank you for your fine efforts.

Yours very truly,

Harold Margulies, M.D.
Associate Division
Director

Dear Doctor Margulies:

Thank you very much for your encouraging letter with reference to Michigan State University work in Vietnam. It is comforting to know that the University has the support of people like you who are in a position to judge its record, and who appreciate the damage that can be done the whole international education movement by unprincipled attacks.

Sincerely,

President

Doctor Harold Margulies
